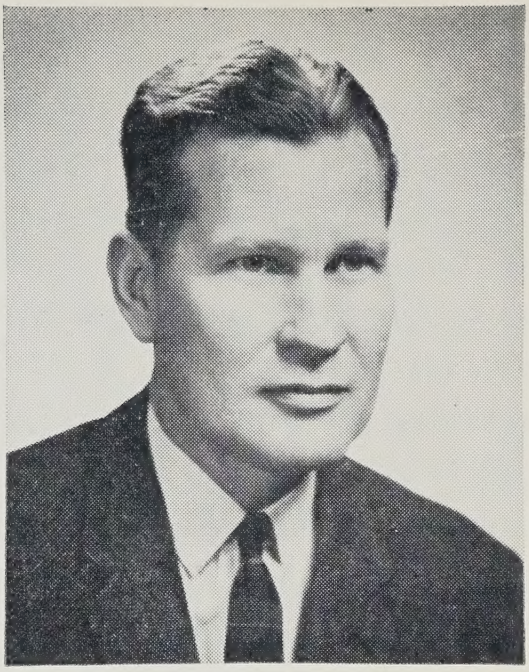
President's Foreword

The 1964-65 season for the profession of dentistry promises many interesting developments in the organizational structure of our profession. The proposals embodied in the Woods, Gordon Report and adopted in principle by the Ontario Dental Association membership at its Annual Meeting, are proposals that affect every member of the Academy personally. A smooth-working, democratic and practical administration is a far, far different thing from a beautiful concept or ideal on paper. So far, we have just the ideal. There is no word, no sentence, no paragraph of the Report that you should not have meticulously examined; and have drawn every controversial point to the attention of your local representative. If there is a key word to the success of the implementation of the Report, it is "participation". Anything short of active, intelligent participation of all the members will make the operation sterile. Please note the meeting report on page 25.

The scope of the Academy's activities is far greater than the one important item mentioned above, and I trust you will read the Year Book carefully and reacquaint yourself with what has been done and what has been planned for you this year.

We of the Council would like to extend our thanks to the membership at large for the large measure of confidence and co-operation we have received in the past, and are sure we shall receive again this year.

J. E. CARSON McGOWAN,
President.



DR. J. E. CARSON McGOWAN

Our President was born in Toronto in 1918, and has spent most of his life there. For five years Hamilton was his home, during which time he attended Westdale Collegiate Institute. He then returned to Toronto for University training, graduating in dentistry in 1942, and directly entered the army. Four years later he was in general practice in Leaside, and remained there until the specialty of orthodontics called. Receiving his M.Sc.D. in 1957, he has since practised in North Toronto.

Dr. McGowan has long been interested and active in society affairs, having served on many dental committees, including the Dental Public Health Committee of the O.D.A., North Toronto executive, Convention committees, and of course on the Academy Council for the last six years. He served on the Faculty staff for three years, and is also past president of the Uptown Optimist Club of Toronto.

Dr. McGowan is married to the former Gwendoline Jardine, and is the proud father of three sons. His interests are diverse, ranging from the arts to athletics, but perhaps centre on people.

FIRST STATED MEETING

FACULTY OF DENTISTRY — 8:15 P.M.

THURSDAY, JANUARY 21st, 1965

Lecturer: MAURICE J. ORINGER, D.D.S.

Topic: *"The 'Properly Conducted' Biopsy: A Safe, Efficient, Reliable Diagnostic Aid".*

Dentistry must contribute more than preservation and restoration of the health and esthetics of the dental structures to earn its place as a responsible member of the health team. It must also contribute positively to the preservation of the health and the life of the patient through early detection and diagnosis of oral pathology, especially of oral malignancy.

Clinical findings, medical and familial histories, blood and other laboratory tests all are useful diagnostic aids, but pathologists and students of cancer concur that biopsy, "properly conducted", is the most reliable diagnostic aid.

This presentation will cover some of the highlights of clinical evaluation of malignancy, and demonstrate a number of safe, efficient techniques for performing biopsy by electro-section.

Biography:

Dr. Oringer graduated from the New York University College of Dentistry, and practises in New York, limiting his practice to diagnosis and oral surgery. He is instructor in dental electrosurgery at Temple University School of Dentistry (postgraduate division); Saint Louis University (Metropolitan College), and the Continuing Education School of the First District Dental Society of New York.

Our lecturer is consultant in oral surgery and oral diagnosis at St. Francis Hospital, Poughkeepsie, and is a member of the oral surgery staff at the Mt. Sinai Hospital, New York. He is also the President of the American Academy of Dental Electrosurgery.

Dr. Oringer has written a textbook — "Electrosurgery In Dentistry", and is the author of more than thirty scientific papers.

SECOND STATED MEETING

FACULTY OF DENTISTRY 8:15 P.M.

THURSDAY, FEBRUARY 18th, 1965

Essayist: T. M. Graber, D.D.S., M.S.D., Ph.D.

Topic: *"Orthodontics the Dentist Can Use".*

Orthodontics, since it is a specialty by training and practice, is beyond the limits of the average general practitioner. There are certain orthodontic concepts and circumscribed procedures which should play an integral part of general practice, however. Even as in general dentistry, where oral diagnosis is a keystone of successful practice, so is recognition in orthodontics a major consideration. The paper will deal with specific diagnostic criteria and simple corrective measures, with special emphasis on muscle habit problems and vertical dimension considerations.

Biography:

Dr. Graber was born in St. Louis, Missouri and obtained his dental degree at Washington University at St. Louis in 1940. He subsequently studied for and obtained an M.S.D. at Northwestern University, using orthodontics as his major field, in 1946. He then took his Ph.D., majoring in orthodontics and anatomy, at Northwestern Medical School, obtaining his degree in 1950.

Dr. Graber was in private practice until 1942, when he joined the army. Since 1956 he has been teaching, and is currently in private practice in orthodontics in Chicago, and is special lecturer at the University of Michigan Dental School.

Our speaker has lectured all over the world, and has served organized dentistry in many capacities. He has written 85 articles in medical and dental journals, and has written a textbook — "Orthodontic Principles and Practice".

He is the recipient of innumerable honours at home and abroad, and we consider it a privilege to have him come to speak to our Academy.

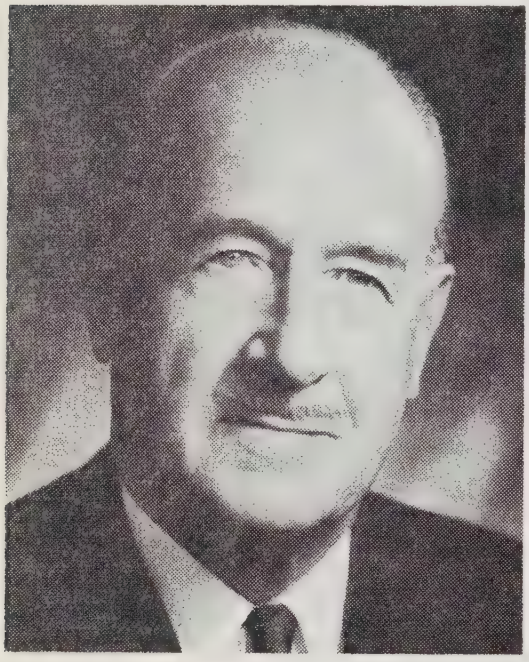
THIRD STATED MEETING

FACULTY OF DENTISTRY — 8:15 P.M.

THURSDAY, MARCH 18th, 1965

Topic: *"The Importance of Diagnosis, Design and Treatment Planning in Crown and Bridge Prosthesis".*

Essayist: FRANK MARTIN, D.D.S., M.I.C.D., F.I.C.D.



This presentation will discuss the importance of a basic knowledge of periodontology. It is essential, for without this knowledge diagnosis and prognosis would be impossible.

Design does not just mean the number of abutments and pontics used. The design must be physiologically sound in order to maintain a healthy environment.

Careful planning is essential to arrive at a successful completion. The preparation of the patient and restoring the mouth to a healthy condition will be discussed. Finally, the maintenance, home care and periodic treatment will be discussed.

Biography:

Dr. Martin was born and spent his early boyhood in Ireland, then came to Canada with his parents. After serving with the Canadian Dental Corps during the First World War, he moved to Sidcup Military Hospital in England, where he earned a reputation in making splints and surgical prosthesis for those suffering facial and jaw injuries.

After attending University in England, Dr. Martin returned to Canada, graduating from the College of Dentistry of the R.C.D.S. in 1923, and since then has been practising in Toronto.

Dr. Martin has served dentistry in many capacities, both as a teacher and on committees; he is a past president of the Academy of Dentistry, Ontario Dental Association and the International College of Dentists. Among the honours presented to him are: Honorary President, Crown and Bridge Study Club, Toronto; Honorary Life Member, Academy of Dentistry, Toronto and the Hamilton Academy of Dentistry; and a Fellowship in the International College of Dentists.

REPORTS

DENTAL ASSISTANTS' EVENING COURSE

The Dental Assistants' Evening Course was again conducted in the improved facilities of the Ryerson Polytechnic Institute. Seventy-eight assistants completed the course successfully and were feted at a graduation ceremony at the Faculty of Dentistry, the diplomas being presented by Dr. W. G. Bruce, President of the Royal College of Dental Surgeons. A graduation address was given by Dr. R. M. Grainger, the immediate past president of this Academy.

The Academy wishes to express its thanks to all of those members whose participation has continued to make the course an annual success. We would ask the profession's co-operation in recognizing the certificate presented to the graduates.

Wilfred J. McColeman,
Chairman.

EMERGENCY SERVICE ROSTER

The after hours emergency service care sponsored by the Academy of Dentistry completed another busy year. Last year 165 dentists served on the roster, with 23 new volunteers and 30 dentists removing their names from the roster.

On the average, the service handled 5 calls per night, 12 calls per Saturday, 21 calls per Sunday and 25 calls per holiday, and on the whole, this service appears to be fulfilling its function as a public service and filling a definite need in this area.

Bert J. Levin,
Chairman, Emergency Service Roster

MEDIATIONS COMMITTEE

In 1963 a total number of 40 complaints was received by the Mediations Committee, and this constituted a slight increase from 1962. Of these complaints 31% concerned fees, 30% prosthetics, 10% diagnosis, 3% children, and the other 26% were miscellaneoeus complaints.

Since the Committee's inception in 1958, 13% of the dentists in the Metro area have been involved in mediations problems, and fortunately the Committee has found that only a few of the complaints appeared to be justified.

A total of 18 Academy members serve on this Committee. They deserve the gratitude of all members for giving so generously of their time and efforts in this very necessary but not too pleasant area of the Academy's service to the public.

Gordon M. Marshall,
Chairman, Mediations Committee.

SECRETARY'S REPORT 1963-64

The year's activities opened with the Golf Tournament, which this year was held at St. George's Golf and Country Club. Needless to say the function was well attended by all the experts anxious to show their rate of improvement made over the summer.

After a slight change in plans the most successful dance ever held by the Academy was attested to by the excellent attendance at the Rosedale Golf Club on November 8th. Congratulations to Dr. Jack Mullett on a most successful affair.

On November 28th Dr. Carson McGowan convened a most successful Winter Clinic. This was well attended by both our members and those from nearby communities.

Unfortunately this year we only managed two Stated Meetings, as one of the clinicians had an unfortunate illness. Dr. S. P. Ramfjord and Dr. D. Kepron both presented their points of view regarding occlusion — Dr. Ramfjord as a periodontist and Dr. Kepron as an expert in crown and bridge.

This year we were honoured with the presence of Dr. J. Zimmerman, President of the Canadian Dental Association, who spoke on the plans of his Association. A lively question period followed the presentation.

The year was formally closed at the Annual Dinner, where Dr. Don W. Gullett was presented with an Honorary Life Membership.

Many other areas of activity were busily cared for during the year; the Dental Assistants' Course, the Mediations Committee, the Emergency Service Roster, to name a few. The Insurance Committee completed its program, and we are well on our way to a more complete and unified insurance program on a provincial level.

This year the Academy Council helped to convince the Scarborough Board of Health to maintain its Dental Health Department, which was to have been cancelled.

In the week of May 4th, the Academy participated in a Careers Exposition. This was manned by volunteers, and to them must go a hearty vote of thanks for making the venture as successful as it was.

The Academy of Dentistry Prize in children's dentistry presented to a fourth year student at the Faculty of Dentistry, University of Toronto, was this year won by F. E. Young. We extend congratulations and best wishes to Dr. Young for future success.

The Council wishes to take this opportunity to thank Mrs. K. Montgomery for the help she has given all of us. With her assistance the many chores the Council are asked to perform become simple little tasks.

HAROLD KEITH BOX MEMORIAL LECTURE

Monday, October 26th 1964

8.15 p.m. **Faculty of Dentistry**
124 Edward Street

Speaker:

DR. JENS J. PINDBORG
Professor of the Department of Oral Histopathology
Royal Dental College, Copenhagen, Denmark
and
Former World Health Organization Visiting Professor

Subject:

"ORAL CANCER FROM AN INTERNATIONAL POINT OF VIEW"

Professor Pindborg is one of the greatest authorities in the world concerning lesions of the oral mucosa. His studies and teaching concerning oral cancer have been conducted in many parts of the world. This will be an outstanding presentation.

During Tuesday, October 27th, 1964, from 9:30 a.m. to 5:00 p.m., Professor Pindborg will present a One-Day Course on "Periodontal Changes in Systemic Disease". Fee: $20.00. Communications should be addressed to the Chairman of Graduate and Postgraduate Studies, Faculty of Dentistry, University of Toronto, 124 Edward Street, Toronto 2, Ontario.

THE WOODS, GORDON REPORT

The implementation of the basic principles of the Woods, Gordon Report by the Liaison Committee of the O.D.A. and the R.C.D.S., depends greatly on strong local dental associations which have definite opinions that they are anxious to make known to the committee. This makes it mandatory that each of us is familiar with the contents of the Report, that each of us has thought out the impact the various procedures will make on us, and each of us is familiar with the opinions of others and the reasons for their feelings.

For instance — how would you resolve this question? A member has subscribed to the Academy insurance plan for ten years, helped it through its formative years when the coverage was not as good as now, and is uninsurable privately. Should this man be forced to join the O.D.A. or else lose his insurance?

There are countless problems of this sort which must be argued before implementation, not after. The Liaison Committee needs to know your opinion.

The four local Toronto dental societies are making available to you the opportunity of discussing the Report this fall. Each of you will receive a copy of the Report, and a copy of some of the deliberations of the Liaison Committee (both of which have already been previously sent to you) before the meeting. Please read them carefully and please attend the meeting and participate in it. A member of the Liaison Committee will be there to answer questions.

Central — Tuesday, October 6 — Scott's Restaurant, Bloor Street.

East — Tuesday, October 6 — East General Hospital.

North — Tuesday, October 6 — St. Margaret's Parish Hall, Avenue Road.

West — Wednesday, September 30 — Mayfair Inn, 1184 The Queensway.

TWO-DAY COURSE IN HOSPITAL DENTISTRY

Scarborough General Hospital

Thursday and Friday

October 15-16, 1964

There has been a resurgence of interest in hospital dentistry, not only on the part of the professions, but also those agencies and organizations which govern and regulate our hospitals.

With full cognizance of this, the staff of Scarborough General Hospital is holding its second annual two-day seminar on hospital dentistry. The theme will be "Co-operation" between the medical and dental professions.

Registration fee $50.00 **Limited Attendance**

Details from: Dr. E. G. Bertrand, Course Registrar
Scarborough General Hospital
3050 Lawrence Ave. East
Scarborough, Ontario

MR. I. M. HANNAH

32 Gardenvale Road, Toronto 18 BE. 3-4390

Call Mr. Hannah for complete information regarding employment of full or part-time assistants:

1. If you are a dentist who wishes to employ a nurse or assistant.
2. If you know of a nurse or assistant looking for a position in a dental office.
3. If you wish an assistant with no previous dental experience to learn your own office routine.

UNITED APPEAL CAMPAIGN 1964

Chairman ..... Bert J. Levin
Vice-Chairman ..... Howard A. Ferguson

Captains:

J. E. Ackerman	D. Cowan	J. B. Houston	H. T. Robbins
C. W. Barootes	J. M. Crawford	W. J. McColeman	A. D. Smith
B. J. Bassett	W. M. Godsoe	R. S. McKegney	H. Spillman
A. J. Breglia	R. S. Grose	H. E. Pepper	G. C. Stirling
M. W. Buchman	R. J. Hall	F. Pulver	A. H. Thomson

In addition to the above captains there are 80 dental canvassers who have volunteered to take time from their busy practices.

One may consider that these dentists perform a double duty, for they donate both time and money.

We can reciprocate by receiving them as soon as possible when they call for our United Appeal donation. How much more comfortable it is when the canvass is within our own profession.

MESSAGE FROM THE PRESIDENT

Reading through the Year Book of the Academy of Dentistry, Toronto, one realizes that it is composed of a nucleus of men dedicated to the amelioration of our profession. Your members have combined science with its social responsibilities to the public.

As we view the evolution in health services, we realize that more than ever your members must adhere to these same philosophical principles.

The Canadian Dental Association is proud of your Academy and extends best wishes for greater success and accomplishments.

REMY LANGLOIS, President.
